

18 NOV 2019

Dear [REDACTED],

On 29 July 2019 you emailed the Ministry of Social Development (the Ministry) requesting, under the Official Information Act 1982, the following information:

- *A current list of service providers in the wider Auckland area contracted by the Ministry of Social Development to assist clients on a benefit to acquire skills and find work.*
- *For this list to include the provider name, contact name, service provided and the contract value, as well as the address of the provider and the area of Auckland each one is servicing if possible.*

The Ministry provides a range of programmes and services to assist clients on a benefit to acquire skills and find work. The providers deliver services designed to assist those people to return to employment as quickly as possible, by providing a wraparound service that may include employment-related case management, employment placement, and in-work support through an external provider.

These programmes and services are generally contracted through a tender process published on the New Zealand Government Electronic Tenders Service for a period of up to three years.

All contracts are reviewed annually, and providers are required to submit regular reports to the Ministry as part of their contractual obligations. If a provider does not meet their contracted outcomes, the programme may be refocused or not renewed.

Provider funding is based on an incentivised outcome-based contract consisting of milestone payments and success fees for achieving agreed outcomes. This means the provider does not necessarily receive the maximum amount available under the contract.

Attached are two lists that show the employment or employment skills focused contracts for Auckland region for the 2018/19 financial year, broken down by provider legal name, contract name, contract start and end dates, description of service and contract value. Please note that some are multiyear contracts.

Note that contract values vary according to the service provided and the length of the contract.

**MINISTRY OF SOCIAL
DEVELOPMENT**

TE MANATŪ WHAKAHIATO ORA

Your request for the contact information for these service providers is withheld under section 9(2)(a) of the Act to protect the privacy of natural persons. The need to protect the privacy of these individuals outweighs any public interest in this information.

Some information in the list for the Mana in Mahi contracts have been withheld under section 9(2)(a) of the Act as they are small and medium sized employers. Providing these employer names may lead to the identification of participants involved in the programme, and a breach of their privacy. The need to protect the privacy of these individuals outweighs any public interest in this information.

The principles and purposes of the Official Information Act 1982 under which you made your request are:

- to create greater openness and transparency about the plans, work and activities of the Government,
- to increase the ability of the public to participate in the making and administration of our laws and policies and
- to lead to greater accountability in the conduct of public affairs.

This Ministry fully supports those principles and purposes. The Ministry therefore intends to make the information contained in this letter and any attached documents available to the wider public shortly. The Ministry will do this by publishing this letter and attachments on the Ministry of Social Development's website.

Your personal details will be deleted, and the Ministry will not publish any information that would identify you as the person who requested the information.

If you wish to discuss this response with us, please feel free to contact OIA_Requests@msd.govt.nz.

If you are not satisfied with this response regarding employment or employment skills focused service providers, you have the right to seek an investigation and review by the Ombudsman. Information about how to make a complaint is available at www.ombudsman.parliament.nz or 0800 802 602.

Yours sincerely

Bridget Saunders
Team Manager, Issue Resolution
