

22 JUN 2021

Dear

On 24 May 2021, you emailed the Ministry of Social Development (the Ministry) requesting, under the Official Information Act 1982 (the Act), the following information:

- 1. The number of people with a mental disability on a social security benefit in 2018, 2019, and 2020.*
- 2. The number of people with a disability on a social security benefit in 2018, 2019 and 2020.*
- 3. The amount of funding given to community organisations that help people with disabilities to obtain employment in 2018, 2019 and 2020.*
- 4. The amount of funding given to community organisations to assist people with disabilities in 2018, 2019, and 2020.*

The Ministry defines disabled people according to the definition provided in Article One of the United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) which says that disabled people include:

"...those who have long-term physical, mental, intellectual or sensory impairments which in interaction with various barriers may hinder their full and effective participation in society on an equal basis with others..."

The Ministry has a twin track approach to services for disabled people. This means that disabled people can access all of the Ministry's mainstream services, and a range of specialist disability services, if they meet the eligibility criteria.

I will now respond to each of your questions in turn:

- 1. The number of people with a mental disability on a social security benefit in 2018, 2019, and 2020.*
- 2. The number of people with a disability on a social security benefit in 2018, 2019 and 2020.*

Please see **Table One** overleaf, which shows the number of Supported Living Payment benefits for the years ending December 2018 to December 2020, broken down by primary incapacity group.

Notes:

- To protect confidentiality the Ministry uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- A value of one or two may be rounded to zero or three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.

The Office for Disability Issues (ODI) is administered by the Ministry of Social Development. ODI is the focal point in government on disability issues and supports implementation of the United Nations Convention on the Rights of Persons with Disabilities and the New Zealand Disability Strategy.

For the financial years 2018 to 2020, ODI has provided funding to the following community organisations:

New Zealand Sign Language Fund

The funding grants awarded, including recipients and amounts, are all publicly available online through the ODI website at the following link: www.odi.govt.nz/nzsl/nzsl-fund/previous-nzsl-fund-rounds/.

In order to be helpful, the funding allocated for the financial year beginning 30 June 2020 can be found at the following link: www.odi.govt.nz/nzsl/news/nzsl-fund-round-7-recipients/.

Disabled Peoples Organisations Coalition (DPO Coalition) member organisations:

Funding is provided to the DPO Coalition organisations to support the active involvement by government agencies of representative organisations of disabled people in decision making about policies and practices that affect disabled people. Please see below **Table Five**, which shows the total amount of funding provided to the seven current DPO Coalition organisations for the three years ending 30 June.
