	-					
Assessment and referral	3.30	8.30			N/A	
Data, Analytics and Evidence services	-	1.00	1.00			Evaluation From cab min CAB-22-MIN-0039.01
Food	54.28	143.90	182.50			
<i>Food support (extension of baseline for Food Secure Programme)</i>	14.48	17.50	17.50		We do not yet have a complete view of expenditure from providers. However reporting in recent weeks indicates that spend is aligned with projected demand.	
<i>Commercial Food</i>	6.70	10.00				This funding is drawn from food support category but held in reserve for commercial food arrangements in event community capacity is overwhelmed
<i>Food support</i>	33.10	69.15	165.00			The unit cost per food parcel from 1 February 2022 is forecast to increase from \$100 to \$180 and include all associated costs. MSD reprioritised \$12m for food support spending to improve the resilience of the community foodbank supply chain. This includes money for NZFN Verbal commitments have been made to providers from the money committed to date, and providers are mobilising to deliver food packages. Delays in funding paid are due to administrative duties.
<i>Food contingency</i>		47.25				
Community Connectors	115.80	148.00	123.67			
<i>Community Connectors (FTE and funding for non-food essentials)</i>	115.80	148.00	123.67		This information will be available from March 28	MSD reprioritised funding to fund further connectors as high priority to immediately increase the number of Community Connectors by 57, bringing the total number of Connectors to 303 FTE. Verbal commitments have been made to providers from the money committed to date, and providers are mobilising to deliver Community Connector services. Delays in funding paid are due to administrative duties.
Community support	-				N/A	
<i>Further community support for whānau/households (e.g. financial capability, family/sexual violence, disability supports)</i>	-	-			N/A	Demand for this funding has not eventuated as expected. This funding has therefore been reprioritised to food and Community Connectors to meet high priority needs across the initial allocation and tagged contingency
Housing	2.00	15.50	15.50		N/A	
<i>MBIE (Housing)</i>	0.90	5.50	5.50		N/A	
<i>HUD (Housing)</i>	1.10	10.00	10.00		N/A	The funding has been committed to housing providers to continue to deliver BAU while responding to COVID-19 cases in their facilities.
Provider Capability	7.70	10.60			N/A	Requests for support to date exceed the funding available. We fully expect all funding to be utilised and anticipate that all funding will be spent by end of February 2022.
Community Preparedness and awareness	2.20	4.40	4.40		N/A	The speed at which Provider Capability funding has been paid out has been impacted by the Community Connector onboarding timeframes. Funding has been allocated to regions to enable them to respond rapidly to future outbreaks and expected demand.
Community Contingency (in the event of lockdowns or surge demand)	-				N/A	MSD reprioritised the initial allocation of this funding towards higher priority activities. This includes funding to improve the resilience of the community foodbank supply chain and to immediately increase the number of Community Connectors. The funding allocated in the tagged contingency has been reprioritised to meet initial anticipated demand through the upcoming Omicron surge.
