

18 March 2022

Tēnā koe

On 1 February 2022, you emailed the Minister for Social Development and Employment, Hon Carmel Sepuloni, requesting, under the Official Information Act 1982 (the Act), the following information:

- In September 2021, the Ministry of Social Development posted an Official Information Act request online, relating to a query asking for a list of all emergency housing providers. This document is linked to this email. Can the Ministry please update that list with any other providers that have since received payment from the Ministry.
- Can the Ministry please provide any statistics which show or detail any crime or disturbances brought to its attention by emergency housing clients at these premises between Jan 2021-Jan 2022.

Your request was transferred to the Ministry of Social Development (the Ministry) as the information to which your request relates is operational.

On 3 March 2022, the Ministry contacted you to advise that more time was required to make a decision on your request. You were advised that a decision would be with you on or before 18 March 2022.

The Emergency Housing Special Needs Grant (EH SNG) is available to people who cannot remain in their usual place or residence, if any, and do not have access to other accommodation which is adequate for them or their family's needs. The Ministry pays EH SNGs directly to the accommodation supplier and assistance is generally granted for up to seven nights but can be extended dependant on individual circumstances.

After these seven nights Work and Income arrange another appointment with the client to discuss their housing situation and if another grant is required. The Ministry works hard to support people in emergency housing to secure a long-term housing solution, either through public housing or private rental accommodation. Other options, including transitional housing, can also be explored as an option depending on availability and the individual's circumstances.

The Ministry recognises that motels are not a long-term solution or the solution that we want to deliver for people who are potentially in a vulnerable situation. They provide a short-term solution while more sustainable options are progressed. More information about EH SNGs is available here: www.housing.msd.govt.nz/housing-options/emergency-housing.html.

Please find enclosed **Table One** in **Appendix One**, which lists all accommodation suppliers in New Zealand that have received EH SNGs in the quarter ending December 2021. You will note that the names of some individuals are withheld under section 9(2)(a) of the Act in order to protect the privacy of natural persons. The need to protect the privacy of these individuals outweighs any public interest in this information.

In regard to the second part of your request, the Ministry is unable to provide you with this information as any instances of crime or disturbances at emergency housing locations would be recorded at a regional level and on individual client files. In order to provide you with this information, the Ministry staff would have to manually review hundreds of files. As such, this part of your request has been refused under section 18(f) of the Act. The greater public interest is in the effective and efficient administration of the public service.

I have considered whether the Ministry would be able to respond to your request given extra time, or the ability to charge for the information requested. I have concluded that, in either case, the Ministry's ability to undertake its work would still be prejudiced.

However, in the spirit of being helpful, the Ministry is able to provide you with **Table Two** in **Appendix One**. **Table Two** shows the total number of emergency housing complaints made by emergency housing clients regarding safety concerns, broken down by region and month, for the period 1 April 2021 to 31 January 2022. Please note that complaints regarding safety concerns could be made for any number of different reasons, and do not necessarily indicate that crime or antisocial behaviour was present.

From 28 April 2021, the Complaints Management System was updated to centrally record complaints made by clients about emergency housing suppliers. When concerns are raised about emergency housing suppliers, Regional Housing Managers follow-up directly with the supplier to resolve any issues around quality or service. Where issues cannot be resolved in a timely way, suitable alternative accommodation may be sought for the client.

The Ministry is in regular contact with clients, and if a client advises the Ministry that they do not feel safe in emergency accommodation, the Ministry works with them to identify alternatives and encourages them to report any criminal activity to the Police.

The principles and purposes of the Official Information Act 1982 under which you made your request are:

- to create greater openness and transparency about the plans, work and activities of the Government,
- to increase the ability of the public to participate in the making and administration of our laws and policies and
- to lead to greater accountability in the conduct of public affairs.

This Ministry fully supports those principles and purposes. The Ministry therefore intends to make the information contained in this letter and any attached documents available to the wider public. The Ministry will do this by publishing this letter on the Ministry's website. Your personal details will be deleted, and the Ministry will not publish any information that would identify you as the person who requested the information.

If you wish to discuss this response with us, please feel free to contact OIA Requests@msd.govt.nz.

If you are not satisfied with this response, you have the right to seek an investigation and review by the Ombudsman. Information about how to make a complaint is available at www.ombudsman.parliament.nz or 0800 802 602.

Table One Notes:

- The types of accommodation funded are categorised under: Motel/Hotel, Hostel, Holiday Park/Campground, Marae, Shelter.
- Types of accommodation offered by a supplier may cross multiple categories, for example: a motel may also provide campground or holiday park facilities but be recorded solely as a motel.
- One registered supplier may provide accommodation across multiple premises.
- These premises may be in different locations or operating trading names but are receiving payment through the single supplier record.

Table Two: The total number of emergency housing complaints made by emergency housing clients regarding safety concerns, broken down by region and month, for the period 1 April 2021 to 31 January 2022.

Table Two Notes:

- Numbers are a count of complaints, not clients. A client could make a complaint multiple times within the period.
- Region is the region of the office in which the complaint was received.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table. A value of one or two may be rounded to zero or three. The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals. The published counts will never differ by more than two counts.
- In certain circumstances low numbers may potentially lead to individuals being identified. Due to these privacy concerns, numbers for some categories of clients have been suppressed or aggregated.
- Secondary suppression rules have also been applied when required. Suppressed numbers have been replaced by an 'S'.
