Questions 1 and 2

1. Do you think that there needs to be a change to the Minimum Wage Exemption?

- ☐ Yes
☒ No

2. If yes, what do you think is wrong with the current MWE scheme? (please select all that you agree with, and provide as many other options as you think are relevant)

- a. It discriminates against disabled people
- b. It conflicts with the United Nations Convention on the Rights of Persons with Disabilities
- c. The assessment process focuses on what the disabled person cannot do
- d. The wage assessment tools that are used may not assess disabled people equitably
- e. I don't think there should be a wage assessment process
- f. Other (please specify all other things you think need to change – there is no limit)

Why are we proposing a wage supplement to replace the MWE?

- 21. For many people, an end to all forms of discrimination (including MWE permits) remains a key objective. At the same time, we understand that for a lot of disabled people who are currently employed with a MWE permit, the job, workplace and income security are important.
- 22. When we were considering alternatives to the MWE scheme, we were mindful of the need to ensure the protection of all job opportunities that the current scheme provides for disabled people. A “bottom line” requirement for government is that nobody should be worse off as a result of any changes to the MWE scheme.
- 23. Through the work with disability sector representatives, we identified that a wage supplement would both protect existing employment opportunities for disabled people with a MWE, and would mean that those employees could be paid minimum wage.

RELEASED UNDER THE
 OFFICIAL INFORMATION ACT

Jeremy has a MWE. He works 28 hours per week at \$5 per hour. He receives a single rate of Supported Living Payment, 18 years+. He lives at home with his parents and does not pay any board. He receives \$12 per week Disability Allowance (DA) from Work and Income for ongoing costs related to his disability. In addition, he is paying back a Student Loan from a course he undertook after leaving school a few years ago. He also contributes 3% of his before tax income to KiwiSaver. Each week he receives:

- Gross weekly income is \$291.40 from SLP⁵, \$12 DA and \$140 from working (total \$443.40)
 - PAYE⁶ deduction is \$62.53
 - Student Loan repayment is \$16.80
 - KiwiSaver contribution (3%)⁷ is \$4.20
 - Total deductions (\$83.53)
- **Net income after deductions is \$359.87 per week**

Under a wage supplement approach, Jeremy would earn \$16.50 per hour. If we assume his financial obligations remain, each week he would now receive:

- Gross weekly income is \$90.40 from SLP (after abatement through earned income), \$12 DA and \$462 from work (total \$564.40)
 - PAYE deduction is \$98.01
 - Student Loan repayment is \$55.44
 - KiwiSaver contribution (3%) is \$13.86
 - Total deductions (\$167.31)
- **Net income after deductions is \$397.52**

The net benefit of Jeremy receiving a wage supplement is \$37.65 per week (\$1,957.80 over a year/52 weeks). This is after paying additional income tax, Student Loan repayments and KiwiSaver contributions. If Jeremy did not have a Student Loan to repay, the net benefit would be higher again. Under a wage supplement approach Jeremy will be able to pay off his Student Loan earlier.

Questions 3 and 4

3. Do you think that a wage supplement approach would be better than the MWE?

- ☐ Yes
☐ No

4. What things (criteria) do you think should determine whether an individual should be able to get a wage supplement?

⁵ This is less than the full rate of SLP as Jeremy's \$140 earnings are considered chargeable income and mean his SLP is abated by \$12 per week.

⁶ This does not include DA, as DA is a non-taxable allowance.

⁷ Note KiwiSaver contributions are only paid in respect of earnings, not benefits.

Questions 5, 6 and 7

5. Do you think disabled people eligible for a wage supplement should be assessed to determine what rate of supplement is paid to the employer by the government?

☐ Yes

☐ No

6. If yes:

a. What things should be considered when determining how much an employer should contribute to the worker's wage, and how much should be paid by the government?

b. Who do you think should assess individual employees' productivity and/or their skills and abilities? (e.g. government, employer, someone else – please give as much detail as possible)

c. What kind of government oversight should be applied to employers making use of a wage supplement? Which government agency or agencies do you think should fulfil this role?

If no:

7. Do you think the government should pay the employer a single rate of wage supplement for all the disabled employees who are eligible, and avoid an assessment of their work abilities?

☐ Yes

☐ No

8. What do you like about a wage supplement approach?

- c. something else – please specify in as much detail as possible the alternative mechanism you would prefer.
