

Student Allowance

January to September 2023

The [Student Allowance Scheme](#) provides financial assistance for eligible full-time students who are enrolled in a recognised course of study or programme, at an approved education provider. It is paid weekly to help students with their living expenses.

For this report, a student is defined as a person who received at least one payment from [StudyLink](#) in the calendar year, up to the end of the specified reporting month. The data in this report is cumulative calendar year-to-date figures. Amounts are rounded to the nearest dollar and all percentages are computed using actual data and rounded to one decimal point. Total percentages may not add up to exactly 100 percent because of rounding effects. In line with the Ministry of Social Development’s confidentiality policy, all information in this document has been randomly rounded to base three. The last three years of data and annual comparisons are presented in summary tables. Earlier figures are included in the Student Allowance data file.

1

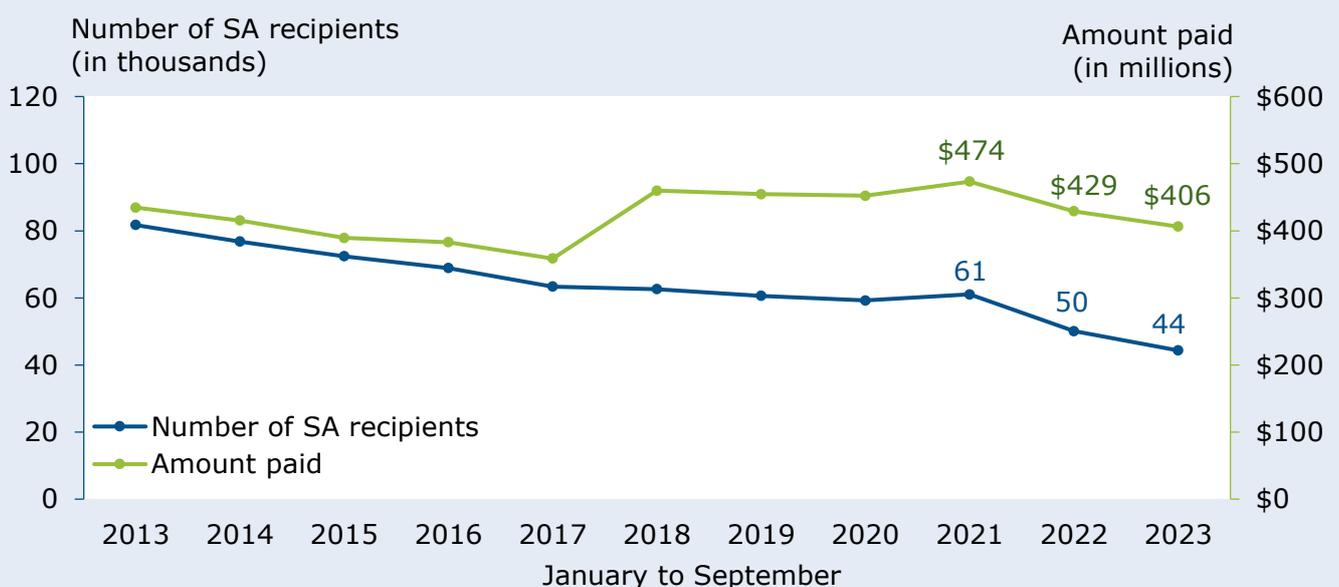

Number of recipients and amount paid

There were fewer Student Allowance recipients between January and September 2023 than in the same period in 2022.

From January to September 2023, 44,328 students received financial assistance under the Student Allowances (SA) Scheme. This was 5,784 fewer students (down 11.5 percent) when compared with the same period in 2022.

A total of \$406.3 million was paid for SA and Accommodation Benefit (AB) from January to September 2023, a decrease of 5.3 percent when compared with the same period in 2022.

Figure 1.1: Number of recipients and amount paid for SA and AB, January to September 2013–2023

On average, students received \$8,063 in SA payments from January to September 2023. This was 8.2 percent more than students received, on average, in January to September 2022. From January to September 2023, students who were also entitled to AB received \$1,604 on average, up 0.7 percent from the same period the previous year.

Below is a summary table with year-on-year comparisons over the previous three years.

Table 1.1: Number of recipients, amounts paid, and average amount paid

Average Accommodation Benefit	\$1,616	\$1,593	\$1,604	-1.4%	0.7%

Note 1: Not every SA recipient is eligible for AB.

Note 2: From 1 April 2022, student allowances rates increased by \$25 per week (in addition to the annual inflation adjustment) which will have had an impact on student allowances payments made in the January to September 2023 period. Where the allowance rate reflects the living expenses of two adults, the increase is \$50 a week.

2

Education providers

Across all types of providers, there were fewer SA recipients enrolled than there were in the same period the previous year.

There were fewer students enrolled across all types of education providers between January and September 2023 than there were in the same period in 2022. This was mainly driven by fewer Student Allowance (SA) recipients enrolled in University and Te Pūkenga (New Zealand Institute of Skills and Technology, formerly Polytechnics and Institutes of Technology).

From January to September 2023, 26,385 students received SA for study at University only. This was 2,364 fewer students (down 8.2 percent) when compared with the same period in 2022 (28,749).

There were 10,986 students who received SA for study at Te Pūkenga only. This was 2,115 fewer students (down 16.1 percent) when compared to the same period in 2022 (13,101).

Table 2.1 provides a summary of the number of SA recipients by the type of provider that they were enrolled in over the previous three years. The SA data file includes breakdowns for the small number of students who received SA for more than one provider type during the year.

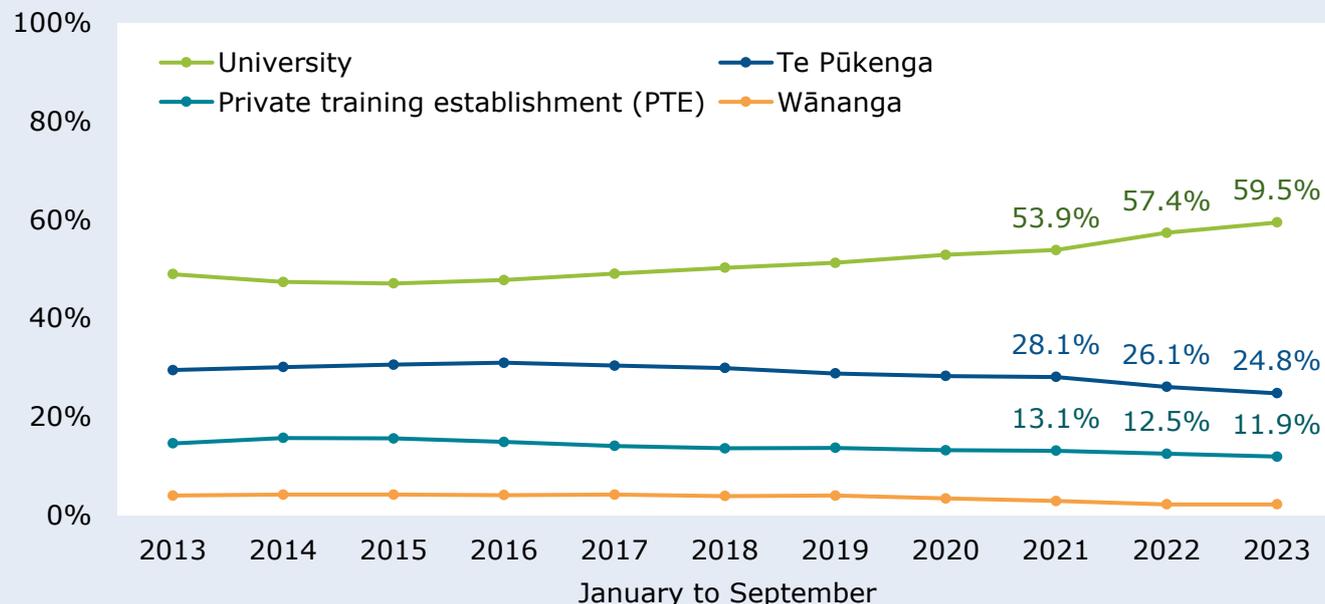

Table 2.1: Number of SA recipients by type of education provider

Total number of Student Allowance recipients	61,071	50,112	44,328	-17.9%	-11.5%

Note: “Multiple and other providers” includes combinations of providers (e.g. University and Te Pūkenga, PTE and University) that some students attended during the specified reporting period, as well as ‘other’ types of education providers such as high schools.

Proportionately, students attending only University accounted for 59.5 percent of SA recipients, followed by students attending only Te Pūkenga at 24.8 percent.

Figure 2.1: Distribution of SA recipients by type of education provider, January to September 2013–2023

Note: To avoid double counting, the figure above excludes a small number of students attending more than one provider type.

Allowances paid based on personal and family circumstances

The [weekly rates for Student Allowance](#) are based on the personal and family circumstances of students, e.g., age, income of the student (and their partner if they have one), parental income for students aged under 24 years, relationship status, and other circumstances.

From January to September 2023, 26.0 percent of SA recipients were single students who were living away from home.

This proportion was 0.6 percentage points lower than it was in January to September 2022.

Total number of Student Allowance recipients	61,071	50,112	44,328	-17.9%	-11.5%

Note: In this document, 'single' generally refers to students aged 24 years or older who are single. Under the SA scheme, a relationship is not recognised if either party is under 24 years old. Students who are under 24 are usually subject to a parental income test for SA. For more information, please see [here](#).

These students would not be receiving payments while their marital/relationship status is not confirmed.

It is not mandatory for students to disclose their ethnicity and students may report more than one ethnicity.

The numbers presented in table 4.5 are total response – students who reported more than one ethnic group were counted in each group they identified with. The total number of responses therefore does not add up to the total number of SA recipients.
