

Student Allowance

January to June 2024

The [Student Allowance Scheme](#) provides financial assistance for eligible full-time students who are enrolled in a recognised course of study or programme, at an approved education provider. It is paid weekly to help students with their living expenses.

For this report, a student is defined as a person who received at least one payment from [StudyLink](#) in the calendar year, up to the end of the specified reporting month. The data in this report is cumulative calendar year-to-date figures. Amounts are rounded to the nearest dollar and all percentages are computed using actual data and rounded to one decimal point. Total percentages may not add up to exactly 100 percent because of rounding effects. In line with the Ministry of Social Development’s confidentiality policy, all numbers of people in this document have been randomly rounded to base three. The last three years of data and annual comparisons are presented in summary tables. Earlier figures are included in the Student Allowance data file.

1

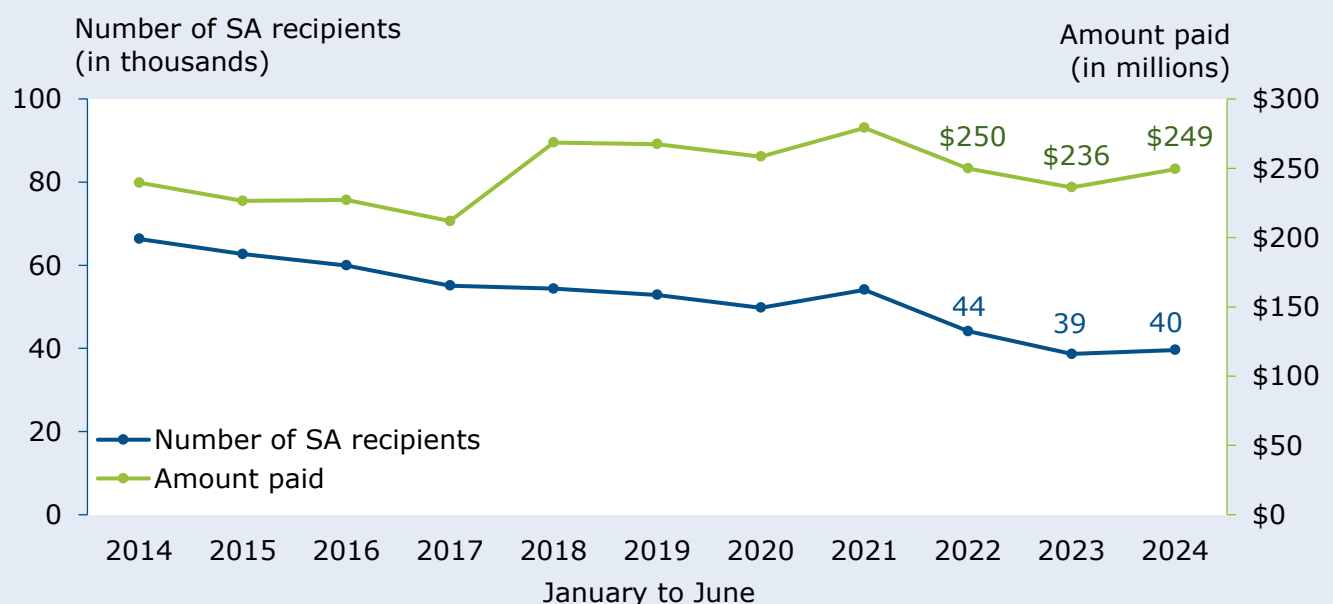

Number of recipients and amount paid

There were more Student Allowance recipients from January to June 2024 than in the same period in 2023.

From January to June 2024, 39,621 students received financial assistance under the Student Allowances (SA) Scheme. This was 957 more students (up 2.5 percent) when compared with the same period in 2023.

A total of \$249.4 million was paid for SA and Accommodation Benefit (AB) from January to June 2024, an increase of 5.6 percent when compared with the same period in 2023.

Figure 1.1: Number of recipients and amount paid for SA and AB, January to June 2014–2024

On average, students received \$5,579 in SA payments from January to June 2024. This was 4.0 percent more than students received, on average, in the same period in 2023.

From January to June 2024, students who were also entitled to AB received \$1,072 on average. This was down 0.8 percent from the same period last year.

Below is a summary table with year-on-year comparisons over the last three years.

Education providers

From January to June 2024, 24,207 students received SA for study at University only. This was 105 more students (up 0.4 percent) when compared with the same period in 2023 (24,102).

There were 9,336 students who received SA for study at only Te Pūkenga. This was 318 more students (up 3.5 percent) when compared with the same period in 2023 (9,018).

Table 2.1 provides a summary of the number of SA recipients by the type of provider that they were enrolled in, over the last three years. The SA data file includes breakdowns for the small number of students who received SA for more than one provider type during the year.

Allowances paid based on personal and family circumstances

The [weekly rates for Student Allowance](#) are based on the personal and family circumstances of students, e.g., age, income of the student (and their partner if they have one), parental income for students aged under 24 years, relationship status, and other circumstances.

From January to June 2024, 23.8 percent of SA recipients were single students who were living away from home. This proportion was 1.3 percentage points lower than it was in the same period in 2023.

Figure 3.1: Proportion of SA recipients based on personal and family circumstances, January to June 2014–2024

Note: In this document, ‘single’ generally refers to students aged 24 years or older who are single. Under the SA scheme, a relationship is not recognised if either party is under 24 years old. Students who are under 24 are usually subject to a parental income test for SA. For more information, please see [here](#).
