

Student Allowance

January to March 2024

The [Student Allowance Scheme](#) provides financial assistance for eligible full-time students who are enrolled in a recognised course of study or programme, at an approved education provider. It is paid weekly to help students with their living expenses.

For this report, a student is defined as a person who received at least one payment from [StudyLink](#) in the calendar year, up to the end of the specified reporting month. The data in this report is cumulative calendar year-to-date figures. Amounts are rounded to the nearest dollar and all percentages are computed using actual data and rounded to one decimal point. Total percentages may not add up to exactly 100 percent because of rounding effects. In line with the Ministry of Social Development’s confidentiality policy, all numbers of people in this document have been randomly rounded to base three. The last three years of data and annual comparisons are presented in summary tables. Earlier figures are included in the Student Allowance data file.

1

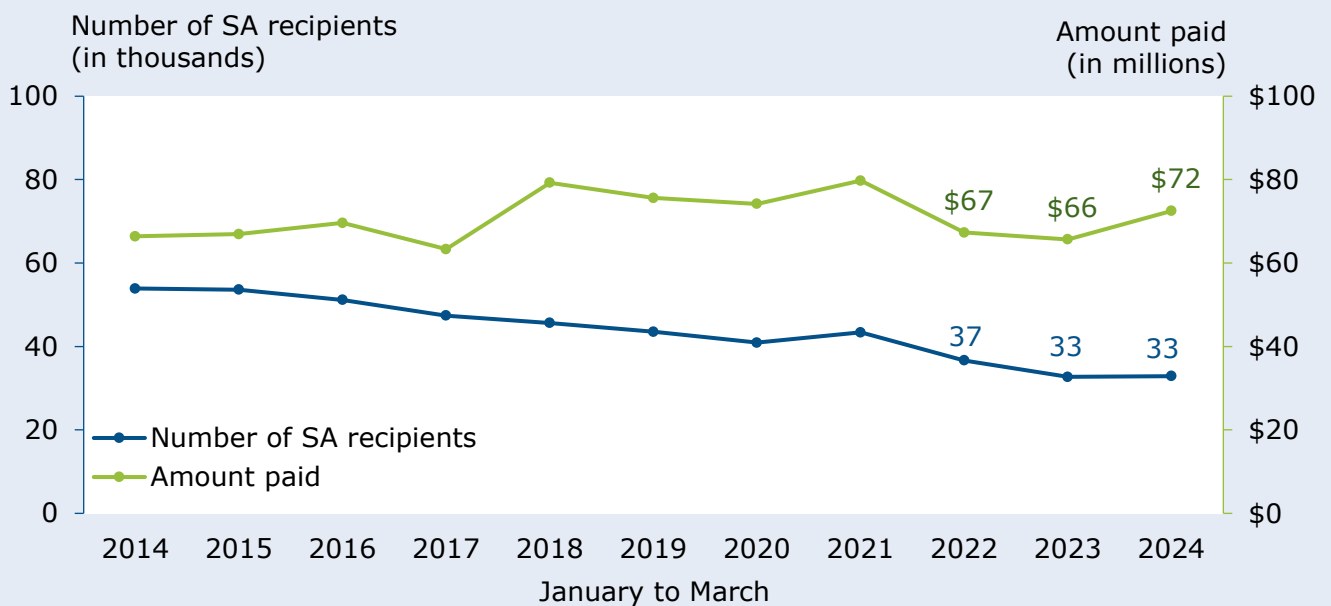

Number of recipients and amount paid

There were more Student Allowance recipients from January to March 2024 than in the same period in 2023.

From January to March 2024, 32,904 students received financial assistance under the Student Allowances (SA) Scheme. This was 225 more students (up 0.7 percent) when compared with the same period in 2023.

A total of \$72.5 million was paid for SA and Accommodation Benefit (AB) from January to March 2024, an increase of 10.4 percent when compared with the same period in 2023.

Figure 1.1: Number of recipients and amount paid for SA and AB, January to March 2014–2024

On average, students received \$1,941 in SA payments from January to March 2024. This was 11.0 percent more than students received, on average, in the same period in 2023.

From January to March 2024, students who were also entitled to AB received \$383 on average. This was up 3.2 percent from the same period last year.

Below is a summary table with year-on-year comparisons over the last three years.

Note 1: Not every SA recipient is eligible for AB.

Note 2: From 1 April 2022, student allowance rates increased by \$25 per week (in addition to the annual inflation adjustment) which had an impact on student allowance payments made in the January to March 2024 period. Where the allowance rate reflects the living expenses of two adults, the increase was \$50 a week.

2

Education providers

Across all types of providers, there were fewer SA recipients enrolled in 2024 than there were in 2023.

From January to March 2024, 20,625 students received SA for study at University only. This was 129 fewer students (down 0.6 percent) when compared with the same period in 2023 (20,754).

There were 7,635 students who received SA for study at only Te Pūkenga. This was 54 fewer students (down 0.7 percent) when compared with the same period in 2023 (7,689).

Table 2.1 provides a summary of the number of SA recipients by the type of provider that they were enrolled in over the last three years. The SA data file includes breakdowns for the small number of students who received SA for more than one provider type during the year.

Note: “Multiple and other providers” includes combinations of providers (e.g. University and Te Pūkenga, PTE and University) that some students attended during the specified reporting period, as well as ‘other’ types of education providers such as high schools.

Students attending only University made up 62.7 percent of SA recipients, followed by students attending only Te Pūkenga at 23.2 percent.

Figure 2.1: Distribution of SA recipients by type of education provider, January to March 2014–2024

Note: To avoid double counting, the figure above excludes a small number of students attending more than one provider type.

Allowances paid based on personal and family circumstances

The [weekly rates for Student Allowance](#) are based on the personal and family circumstances of students, e.g., age, income of the student (and their partner if they have one), parental income for students aged under 24 years, relationship status, and other circumstances.

From January to March 2024, 25.2 percent of SA recipients were single students who were living away from home. This proportion was 1.1 percentage points lower than it was in the same period in 2023.

Figure 3.1: Proportion of SA recipients based on personal and family circumstances, January to March 2014–2024

Total number of Student Allowance recipients	36,633	32,679	32,904	-10.8%	0.7%

Note: In this document, ‘single’ generally refers to students aged 24 years or older who are single. Under the SA scheme, a relationship is not recognised if either party is under 24 years old. Students who are under 24 are usually subject to a parental income test for SA. For more information, please see [here](#).

It is not mandatory for students to disclose their ethnicity and students may report more than one ethnicity.

The numbers presented in table 4.5 are total response – students who reported more than one ethnic group were counted in each group they identified with. The total number of responses therefore does not add up to the total number of SA recipients.
